

BIG MEMBERSHIP DRIVE IS PLANNED

Large Membership Necessary To Secure The Annual Encampment

An extensive membership campaign is now being planned to get a larger membership in the local post of the Sons and Daughters of Utah Pioneers and Indian War Veterans, according to Dr. P. L. Jones captain of the unit.

If Nephi is to secure the annual encampment for 1935, we must have a large and aggressive membership, says Dr. Jones, and this membership must be secured before January, in order to prove to the state officers of the association that we are one hundred per cent behind the organization, and have the support to stage a successful encampment.

It is the plan of Dr. Jones to have a big banquet in January and entertain all members of the local organization and in addition to them, invite the state officials here and show them that Nephi has enough enthusiasm and leadership to put over a real celebration!

During the short time that the membership committee was working during August, they secured a number of members for the association, but there should be at least two hundred and fifty members in the Nephi post and there is no doubt that everybody will respond to the call for new members.

Dr. Jones and the other officers of the post are quite confident that the people here will give their support and providing that the annual encampment can be secured, the Nephites will respond in making it one of the best ever held in Utah. Nephi is situated in such a central point that thousands of people would come here for a celebration, if one was put on that was outstanding enough to attract attention.
