

Central Committee Is Named Monday

The Central Committee who will have direct charge of the annual Blackhawk Encampment and Home Coming was appointed Monday evening when a group of representative citizens met at the city hall. The committee consists of Mayor P. B. Cowan, Patriarch Thomas Bailey, Gilbert Bailey, Dr. P. L. Jones and Glen Worthington.

This committee will have direct supervision of the general affairs of the big celebration, and the members will select the various committees necessary to handle the biggest celebration ever held in this county.

The staging of the Blackhawk and Home Coming is a mighty big undertaking and all citizens of Nephi and vicinity must be united and work untiringly if the celebration is a complete success. From the amount of enthusiasm that has been manifest during the past several weeks, Nephi residents are responding very favorably.

The committee picked Monday is made up of some of the most reliable and enthusiastic workers of the community, and it is hoped that the persons they select on the various sub committees will give them their whole-hearted support in putting over this gigantic undertaking. The staging of the encampment is not a one man affair, it is the duty of the entire citizenry of this district to work hard for the celebration.
