Former Engineer Visits in Nephi
"I can see a great many changes in Nephi these days when I used to run through here" commented Al Dyer, railroad engineer, now retired, who in the days before he retired used to run through Nephi an over-night stop on his two day run.

Mr. Dyer recently completed more than 12 years of service with the Union Pacific system. It was between 35 and 45 years ago that he made his regular trips through Nephi. Many of the old timers and middle-aged residents of Nephi who in those days necessarily rode the trains, will remember Mr. Dyer, and how the trains and their crews used to "put up" at Nephi for the over night stop.

Mr. Dyer and his family were visiting at the home of Mrs. Florence Carter last Saturday, and in addition were receiving many other old acquaintances around Nephi. They also spent some time in Salt Creek canyon, where they enjoyed the fine accommodations there, both for camping and recreation.

Mr. Dyer was struck in his praise for the Union Pacific system, and their method of treating employees. He stated that this veteran organization treated their employees as well as any other organization, and much better than a great many.
